

Dental Assistant

 School of Health Sciences

Make a difference
in oral health

The **Dental Assistant** Program prepares students to enter the healthcare workforce as Dental Assistants who are competent in the provision of safe, ethical and effective care, as well as a valuable team member for the front office.

The program features modern equipment and highly skilled faculty and staff. Students learn to utilize current technology and techniques to facilitate the learning of dental assisting skills in our full-service dental clinic.

Graduates have **excellent job placement rates**, with many students having jobs before graduation in pediatric dentistry, periodontics, preventive dentistry, community and non-profit clinics, and education and research sectors. Pre-arranged clinical externships will provide private practice and community clinic experiences.
