

# How to Disable a Pop-Up Blocker: Firefox

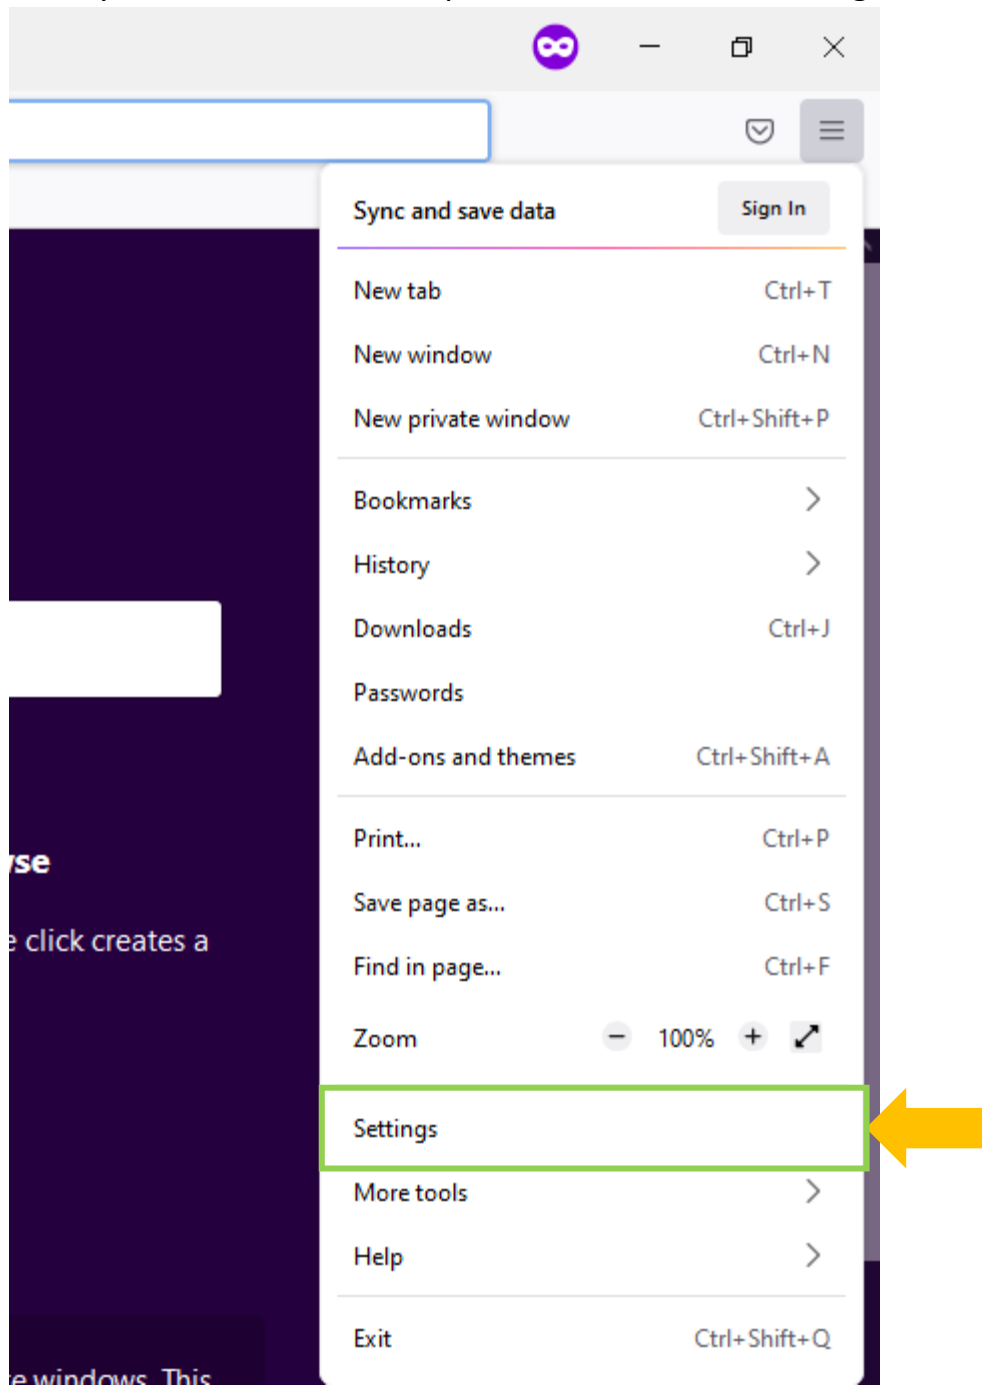

## 1) Open Firefox

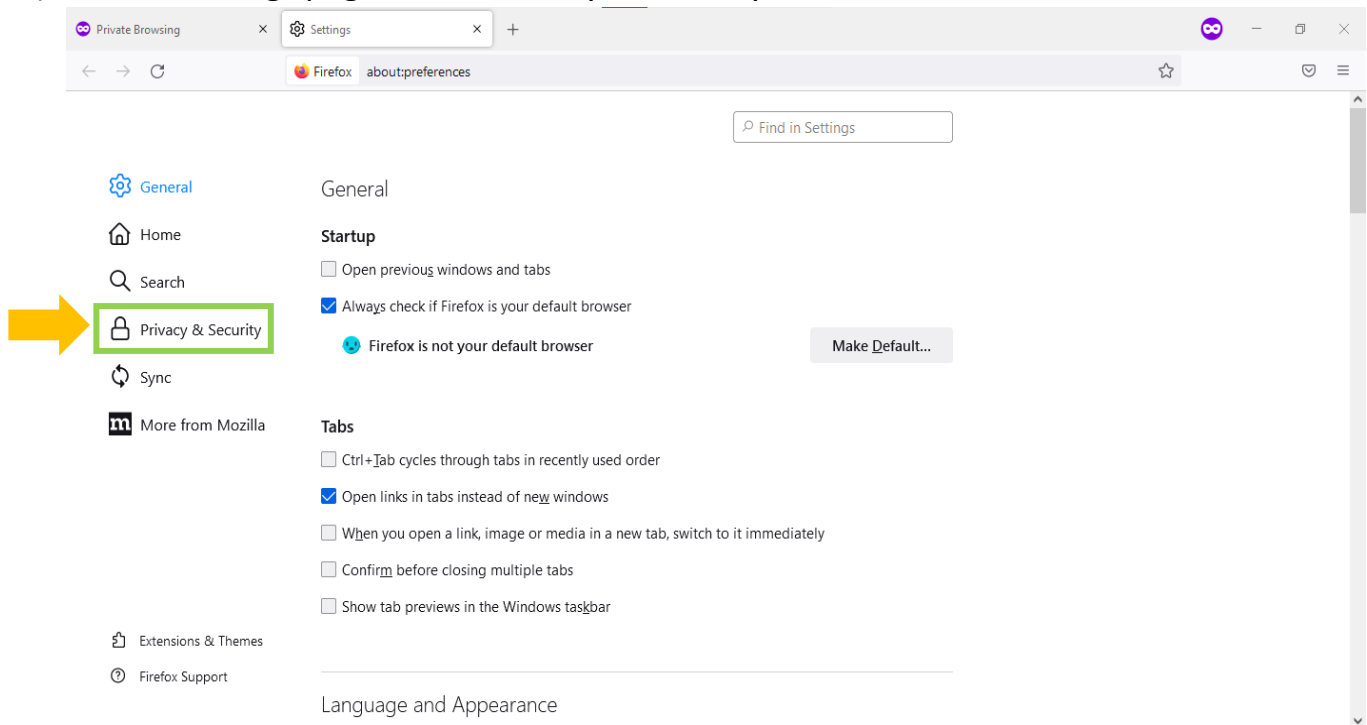

2) Click on the row of bars on the upper right corner of the browser to bring up the menu.

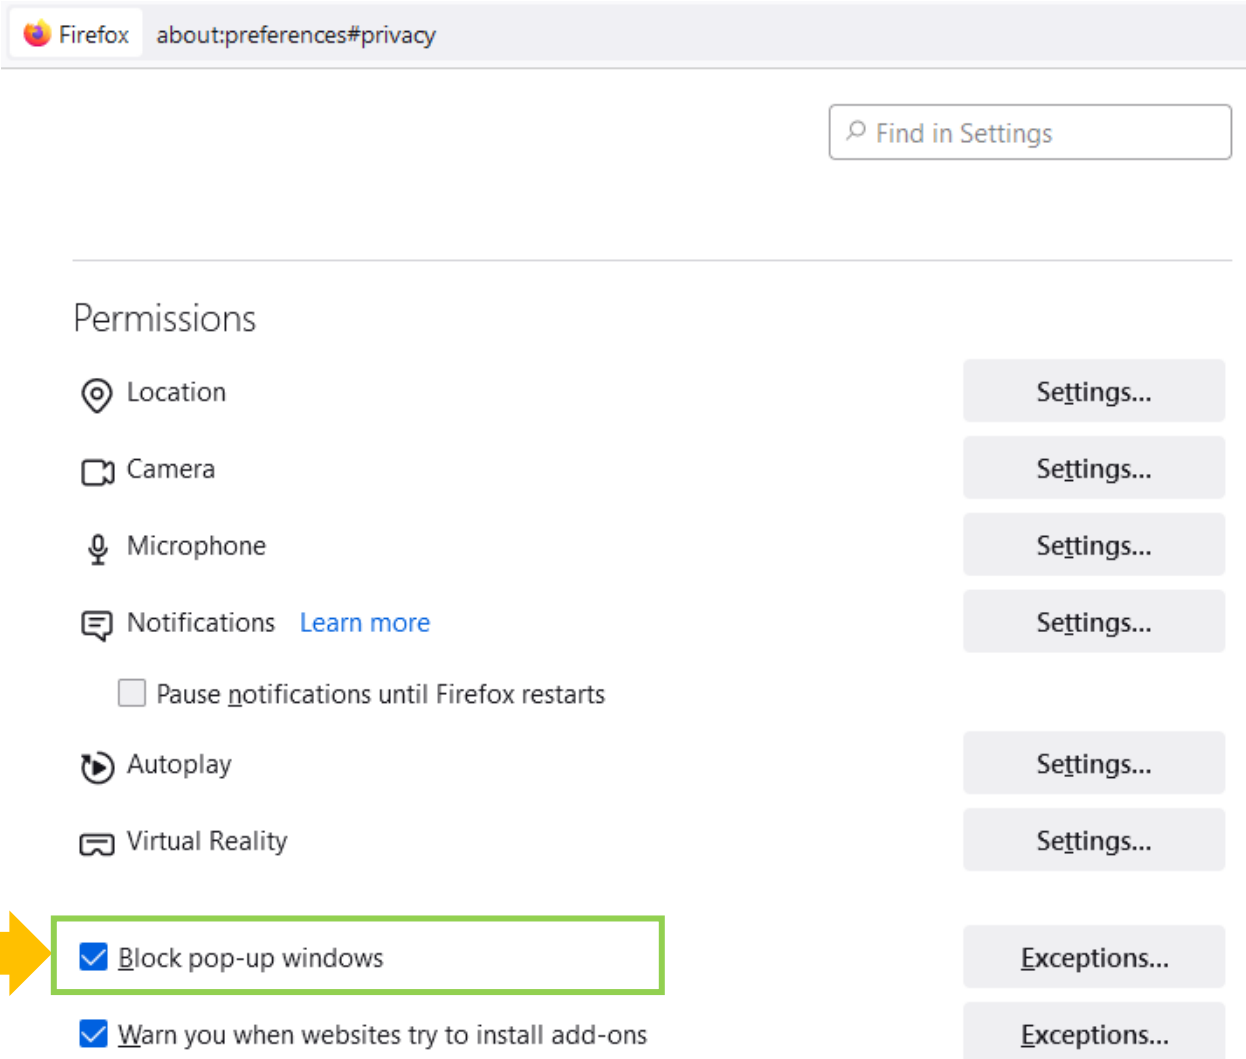

3) Now, you will see Firefox's Options menu. Select: Settings.

4) On the settings page, select Privacy & Security on the left-hand sidebar.

5) Scroll down until you see Permissions. Near the bottom of the permission options, you will see a checkbox next to Block pop-up windows. Check this box to turn on the pop-up blocker or uncheck this box to turn off pop-up blocker.

The screenshot shows the Firefox 'about:preferences#privacy' page. At the top, there is a search bar labeled 'Find in Settings'. Below this is the 'Permissions' section, which lists various permissions with corresponding 'Settings...' buttons:

- Location: Settings...
- Camera: Settings...
- Microphone: Settings...
- Notifications: Settings... (with a 'Learn more' link)
- Pause notifications until Firefox restarts:
- Autoplay: Settings...
- Virtual Reality: Settings...
- Block pop-up windows:  (highlighted with a green box and a yellow arrow)
- Warn you when websites try to install add-ons:  (with an 'Exceptions...' button)
